Professional Summary

Computer Science graduate with professional experience in software development, technical operations, and problem solving. Strong foundation in object-oriented programming, data structures, algorithms, DBMS, operating systems, and software engineering principles. Hands-on experience developing full-stack and backend applications using Python, Java, JavaScript, SQL, Flask, Node.js, and MongoDB through internships and academic projects. Passionate about building scalable software solutions, learning new technologies, and collaborating in Agile environments to deliver high-quality products.

Work Experience

Investigation Specialist, Amazon — Hyderabad, India June 2026 – Present

- Investigated complex customer and operational cases by analyzing large datasets, identifying policy violations, and resolving technical issues with high accuracy.
- Collaborated with cross-functional teams to investigate root causes, document findings, and improve operational efficiency.
- Prioritized multiple high-impact cases while consistently meeting quality, productivity, and SLA targets in a fast-paced environment.
- Strengthened analytical thinking, problem-solving, technical documentation, and decision-making skills through data-driven investigations.

Process Associate, Genpact — Hyderabad, India June 2025 – June 2026

- Processed and analyzed large volumes of customer cases while ensuring compliance with organizational policies and quality standards.
- Investigated operational issues, documented findings, and collaborated with internal stakeholders to resolve process bottlenecks.
- Consistently exceeded productivity, accuracy, and turnaround time goals in a high-volume environment.
- Improved analytical, communication, adaptability, and problem-solving skills while working with cross-functional teams.

Software Development Intern, EdzeQ — Hyderabad, India May 2024 – June 2024

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, Python, and SQL.
- Implemented application features, resolved software defects, and performed testing to improve performance and reliability.
- Collaborated with developers using Git-based version control throughout the software development lifecycle.
- Participated in debugging, code reviews, and feature enhancements while following software engineering best practices.

Education

Bachelor of Technology in Computer Science (Artificial Intelligence & Machine Learning) 2021 – 2025
Malla Reddy Engineering College, Hyderabad
CGPA: 7.8 / 10

Technical Skills

Programming Languages: Python, Java, JavaScript, SQL

Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Problem Solving

Frameworks & Technologies: Flask, Node.js, Express.js, REST APIs, HTML5, CSS3

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman

Cloud: Microsoft Azure Fundamentals (AZ-900)

Projects

IPL Playing XI Builder

[GitHub](#) 

[Live Demo](#) 

- Designed and developed a responsive web application for creating IPL Playing XI combinations.
- Implemented dynamic UI interactions and client-side logic using JavaScript.
- Optimized responsiveness and usability across desktop and mobile devices.
- **Tech Stack:** HTML, CSS, JavaScript

Advance Cure – Healthcare Platform

[GitHub](#) 

- Built a healthcare management platform supporting appointment scheduling and medicine management.
- Developed backend functionality, integrated MongoDB for persistent storage, and implemented responsive user interfaces.
- Improved application reliability through debugging, testing, and feature enhancements.
- **Tech Stack:** HTML, CSS, JavaScript, MongoDB

Blockchain-Based Secure Voting System

[GitHub](#) 

- Developed a blockchain-inspired secure voting application using Python and Flask with RESTful APIs.
- Implemented vote validation, immutable block creation, and backend logic to ensure data integrity.
- Designed modular backend components following object-oriented programming principles.
- **Tech Stack:** Python, Flask, REST APIs

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Data Structures and Algorithms
- Java Programming
- Python Programming
- Machine Learning with Python
