OBJECTIVE

Computer Science graduate with expertise in web development and data science, proficient in programming, problem-solving, and database management. Skilled in effective communication, teamwork, and project management, seeking opportunities to leverage technical and interpersonal abilities in innovative projects.

EDUCATION

Bachelor of Technology in Computer Science (Specialization in AI & ML) Malla Reddy Engineering College, Hyderabad GPA: 7.71/10	2021 - 2025
Telangana State Board of Intermediate Education Narayana Junior College, Madhapur, Hyderabad Percentage: 94.8%	June 2021
Central Board of Secondary Education Army Public School - RK Puram, Hyderabad Percentage: 89.8%	April 2019

SKILLS

Technical Skills	C, C++, Java, Python, JavaScript, HTML, CSS, React, MongoDB, SQL
Soft Skills	Communication, Teamwork, Problem-Solving, Time Management
Tools	Git, VS Code, Postman, Docker, MATLAB

EXPERIENCE

Intern, Path Creators	June 2023 - November 2023
- Collaborated on web applications using the MERN stack, focusing on front-end development. - Implemented optimized and scalable features to ensure maximum application performance. - Conducted push notification frequency analysis to improve user engagement.	
Intern, EdzeQ	May 13, 2024 - June 15, 2024
- Project: Brain Tumor Detection System - Developed a machine learning model to detect brain tumors from medical imaging, focusing on accurate and early diagnosis. - Implemented advanced algorithms to classify tumor types and streamline diagnostic processes for healthcare professionals.	

PROJECTS

Advance Cure <i>Technologies: MongoDB, Express.js, React.js, Node.js, HTML, CSS, JavaScript</i>	June 2022
Developed a secure, scalable healthcare platform to promote accessible healthcare with features like medication suggestions, 24/7 ambulances, expert consultations, and appointments.	

- Connected small and large medical facilities to improve accessibility and affordability for users.
- Leveraged the MERN stack for efficient application performance.

Cricket Player Performance Prediction System

October 2024

Technologies: Python, machine learning algorithms (Linear Regression, Random Forests), Pandas, Matplotlib, MySQL

- Designed a machine learning system to predict cricket players' performance metrics, including batting average, bowling average, and strike rate.
- Provided actionable insights for coaches and analysts to improve decision-making in player selection.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Power BI: Complete Data Visualization Bootcamp
- Machine Learning with Python (Verzeo)
- Python, Java, Data Structures, and C (Tutors Campus)
- CandPython (Skillmate Technologies)
- Java Programming, .NET Fundamentals, and Automation Testing (Great Learning)
